

CINEFILES

CINEMA, THOUGHTFULLY CURATED

CineHaus takes movies beyond the theater, creating screening experiences that feel thoughtful, social, and distinct. We bring people together over the films they love, from familiar favorites to overlooked gems, and turn each event into a space for connection, conversation, and discovery. Each screening is designed to be personal, memorable, and true to the communal spirit of watching movies together.

CineHaus' residency at Desert 5 Spot's rooftop has grown into a summer staple for Angelenos, drawing audiences for movie nights that feel as welcoming as they are memorable. Along the way, the series has been mentioned in the LA Times, TimeOut, and DoLosAngeles, helping introduce the experience to a wider community. A significant portion of our audience comes in as first-time guests to the bar, making moviegoing a low-touch entry point for even the most skeptical customer, but quickly gives them a reason to keep coming back.

CH

Beyond our recurring screening series, CineHaus produces private events and branded activations that are fully customized to each partner, film, and audience.

Most recently, CineHaus hosted the premiere of Americana in partnership with Lionsgate, starring Sydney Sweeney and Halsey.

We partnered with Penguin Random House to host a special Dolly Parton screening of 9 to 5 in celebration of her newest book, Star of the Show.

The event brought Dolly's signature charm into the experience, with custom CineHaus scratchers giving guests the chance to win a copy of the book, a photo booth styled in full Dolly-inspired glam, and a look-alike contest that invited the audience to show up in their best Dolly spirit.

CH

We also host the Academy Awards Soiree, our annual Oscars viewing party and black-tie celebration of cinema. Guests gather to watch the awards together, cast their predictions, win prizes, and enjoy gourmet bites, themed cocktails, a champagne toast, a styled photo booth, and a DJ afterparty.

Every CineHaus experience is fully customizable to the brand, film, and event it's built around, creating something that feels singular, intentional, and unforgettable. We take the big ideas and whittle them down to the finest details, making sure every touchpoint feels connected, from custom pre-show openers and themed photo moments to branded giveaways, interactive elements, and custom temporary tattoos. Nothing is treated as an afterthought. The entire experience is designed to feel integrated, immersive, and true to the world we're inviting guests into.
